THE STATE CONVENTION

The State Convention of the Silver party of Nevada when convened to nominate a full State ticket will be the grandest convention of the kind ever met in this State. It will be prompted by religious sense of duty to the State and to our common country to keep the Silver banner waving, bright and unsullied, by selecting most worthy and competent standard bearers for the campaign of 1894. There will be no cliques, combinations, trading and selling out among the delegates, for every true member of the Silver party, when he abandoned the old, rotten organization, abandoned their mercenary practices and enlisted for the war on principle, for pure government and clean cut politics. Honesty and capacity will be its Jeffersonian test in selecting its nominees. From the abundance of suitable material on every hand in its party lines we may be assured its work will be well done. When the people through the calm and patriotic deliberations of this convention shall demand the services of any Silver man by naming him for some responsible office, we take it that his allegiance to principle and to his State will not permit a declination, however much his modesty or private business may incline him to the contrary, especially since a nomination will be equivalent to an election and no great expenditure of money will be required in the campaign. Upon the other hand, if any person has strayed into the silver ranks inoculated by his old party associations with the virus of office seeking itch and should be passed by when the officers are picking out men he must grin and bear it and not blame the Silver party, but lay it to the old party disease with which he is affected. Let him labor with renewed energy in the silver cause until he has worked out of his system every taint of old party, which is so offensive to the nostrils of the silver goddess, and in the future some office may introduce itself to him.—Silver State.

CLEAR AND FORCEFUL.

A letter from Hon. Thomas Wren on the political situation is printed in the JOURNAL. It concisely states what the speakers of the Silver party asserted in the last campaign in Nevada, and what subsequent events have fully corroborated. It clearly proves that the Republican party is committed against the remonetization of silver and that the Administration's financial policy is endorsed by the Republican leaders.

Mr. Wren shows that the business depression in Nevada, caused by the demonetization of silver, cannot be remedied by the "water cure." The trouble is too serious for such mild treatment. Farmers are now producing more than they dispose of with profit. They want a market first, then water. The resumption of mining will give them, as of old, a home market, but mining cannot be resumed at the present price of silver.

Mr. Wren's remarks are especially intended for Republicans. He was an acknowledged leader of that party for years and remained with it so long as there was a ray of hope that it would endeavor to right the wrong of 1873. Finally, convinced that McKinley, Reed, Sherman and the others who shape the financial policy of the party, were wedded to the gold idol, and, believing the welfare of the State is of greater importance to its citizens than the success of any party, he severed the ties which held him to the party since its organization and henceforth will use his vote and influence for the success of the party that is pledged to free coinage.

AN AMERICAN FINANCIAL SYSTEM.

Bland has no faith in International Monetary Conferences. He believes the United States can stand on its own feet independent of England's action. He says "he never took any stock in this international business, and believes it is all humbug."

We should have an American system of finance as well as an American system of tariff. What we want is money that will pass current at home, not money that will suit Europe. A financial system of that kind would not encourage home industries yet devised, as it would compel us to develop our own resources. Europe would not want our money and would not exchange its products for it, but Europe would be compelled to purchase wheat and pork in the United States.

It is strange, however, that the advocates of exclusive protection are also the advocates of the European financial system. Coin all the silver that is produced in the country regardless of what Europe may do, and you protect every American industry.

Justice White, who was recently appointed Justice of the Supreme Court, is one of the largest individual sugar planters in Louisiana. Last year over 3,000,000 pounds of sugar were produced on his plantation. He is, of course, opposed to the repeal of the sugar bounty, and in favor of protecting sugar.

The Republican press of the East frantically denounces the Bland Seigniorage bill, yet there are Republican office-holders in Nevada, whose salaries are paid by the people, who uphold that party.

CONGRESSIONAL PROCEEDINGS.

Stewart Offers a Free Coinage Amendment to the Bland Bill—Bill to Admit New Mexico.

WASHINGTON, March 5.—The Bland Seigniorage bill was received from the House and referred to the Committee on Finance.

Allen of Nebraska presented an amendment to the rules, providing that it shall be the duty of committees to report on bills and resolutions referred to them within thirty days. Failing to do so, the Senator presenting them may call for a report, under certain restrictions. Referred to the Committee on Rules.

Cockrell ridiculed the petitions he had received from druggists of Missouri protesting against the decrease in the duty of alcohol under the Wilson bill, saying they originated in the State Pharmaceutical Association of Prohibition of Iowa.

Stewart of Nevada objected to reference of Bland's Seigniorage bill to the Finance Committee and asked that it lie on the table so that it might be called up at any time. After considerable discussion this was agreed to with the understanding that it be laid before the Senate to-morrow.

Stewart introduced an amendment to Bland's Seigniorage bill providing for the free coinage of silver.

In the House Breckenridge reported the Urgent Deficiency bill with Senate amendments. The latter were not concurred in and the bill was sent to conference.

McCreary asked unanimous consent for the passage of the Senate resolution for the appointment of a commission to represent this Government at the Antwerp Exposition. Bailey of Texas objected.

The bill to make Bonner's Ferry, Idaho, a port of entry was passed.

After one or two other attempts to get things passed by unanimous consent the House took up the regular order of business.

Delegate Josephs introduced a bill for the admission of New Mexico. Cannon of Illinois raised a point of no quorum and the bill was withdrawn. The House then went into Committee of the Whole on the Pension bill.

TALMAGE TO REMAIN.

He Withdraws His Resignation.

NEW YORK, March 5.—The Rev. T. de Witt Talmage will continue to be pastor of the Brooklyn Tabernacle. He withdrew this morning the resignation of a few weeks ago, and general rejoicing followed the announcement, which was made from the platform. Handkerchiefs waved and the congregation applauded.

After having received an assurance from the trustees that he had succeeded in so arranging the debt of the church that it would no longer be a hindrance to him or give him the least cause for worry, Dr. Talmage decided to continue as pastor. He announces his plans for the Summer by saying:

"In June I will leave for an absence until Autumn in Australia and India, but my place will be occupied by distinguished ministers of the gospel of America and Europe, so that this church will be quite as thronged during my absence as during my presence."

A LARGE SUN SPOT.

Six Times the Diameter of the Earth.

PARIS, March 5.—The Herald publishes the following from Astronomer Flammarion: An enormous spot, visible to the naked eye, now darkens the surface of the sun. It has been pointed out by M. Bruguier, President of the Flammarion Scientific Society of Marseilles and by M. Antoniadi of Constantinople. According to observations taken in Paris it measures 10,000 kilometres in length—in other words nearly six times the diameter of the earth. The day star is at this moment in a maximum state of activity. Photographs of the phenomenon are being daily taken at the observatory at Juvigny and some interesting engravings of them will shortly be ready.

Kossuth Dying.

TURN, Italy, March 5.—Louis Kossuth, the Hungarian patriot, has suffered a relapse, and is again seriously ill. Dr. Basso, his physician, despairs of his recovery, as he refuses to take medical treatment.

The National Republican party favors free coinage at the ratio of 12 to 1, that is, twelve members of the party are against free coinage and one in favor of it.

Deadwood, S. D., was partly destroyed by fire yesterday. The best part of the city is in ruins and the loss over \$150,000.

COMMISSIONERS PROCEEDINGS.

The Tax Levy Fixed—Much Business Transacted.

The Board of County Commissioners met yesterday; present, George Alt, Chairman, W. P. McLaughlin and Jas. F. Crosby, members, O. Evans, Clerk.

After some discussion and careful consideration, the tax levy for the year 1894 was fixed as follows:

State tax	90
General Fund	42
Indigent Fund	18
Road Fund	15
School Fund	17 1/2
Salary Fund	15
Agricultural Fund	2 1/2
Reno Incorporation Fund	70
Reno School Fund	10
State University Fund	10
Wadsworth Fire Department	30

The levy segregated is as follows:

State and county tax	\$2 00
Reno town tax	2 90
Wadsworth town tax	2 30

On motion of Commissioner Crosby the contract for furnishing medicine and medical attendance upon the sick of the county for six months was let to Dr. W. A. Phillips at \$75 per month.

The bond of Dr. Phillips as County Physician, in the sum of \$1,000, with S. J. Hodgkinson and Dr. H. H. Hogan as sureties, was presented and approved. The petition praying that the Board appropriate \$1,000 for Midwinter Fair purposes was taken up and, on motion of Chairman Alt, denied.

After the above action had been taken, W. O. H. Martin appeared before the Board and stated that he had received a telegram from Elko county, stating that if the Commissioners of Washoe county would appropriate \$1,000, the Commissioners of that county would do likewise. The Board, however, not being satisfied that the law would allow such appropriation, refused to reconsider their action.

On motion of member McLaughlin, J. M. Ward was authorized to expend \$100 on the road around Buffalo Canyon.

A petition from Haller, et al., for an appropriation to repair the Verdi bridge, was rejected.

On motion of member McLaughlin, it is ordered that A. Dondero be given a lease of the town park in Powning's Addition for one year at a rental of \$15 for the year.

It was ordered that the offices of the Clerk, Treasurer and Sheriff be papered and otherwise renovated; that the lower hall of the Court-house be kalsomined, and a new carpet be purchased for the District Attorney's office.

After allowing the several bills against the county, the Board adjourned to meet on the 19th inst.

Telegraphic Notes.

Bishop Paddock of Tacoma died at Santa Barbara, California, night before last. His death resulted from paralysis.

Wheat for May delivery sold in San Francisco yesterday at 11 1/2. Spot wheat advanced to 95 for No. 1 shipping.

George D. Norton, formerly of Virginia City, Nev., and one of the most prominent mining experts, was found dead in his bed at Denver yesterday.

Abraham Julius Kessler, a lunatic, appeared at the White House in Washington yesterday and announced that he had come to take possession of it and turn it over to the Jews.

The second trial of R. S. Heath, indicted for the murder of L. B. McWhirter, began yesterday at Fresno, Cal., before Judge Shaw of Los Angeles. McWhirter was murdered in August, 1892.

Senator White, who has been confirmed Associate Justice of the Supreme Court, has not yet resigned as Senator. He is owner of a sugar plantation and remains in the Senate to fight free sugar.

INFLUENZA,

Or La Grippe, though occasionally epidemic, is always more or less prevalent. The best remedy for this complaint is Ayer's Cherry Pectoral.

"Last Spring, I was taken down with La Grippe. At times I was completely prostrated, and so difficult was my breathing that my breast seemed as if confined in an iron cage. I procured a bottle of Ayer's Cherry Pectoral, and no sooner had I begun taking it than relief followed. I could not believe that the effect would be so rapid and the cure so complete. It is truly a wonderful medicine."—W. H. WILLIAMS, Crook City, S. D.

Deafness Cannot be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound and imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circular, free.

EX-CONGRESSMAN WREN'S VIEWS.

What He says of the Political Situation—Questions for Republicans to answer—The "Water Cure" will not Restore Prosperity.

EDITOR JOURNAL:—During the last political canvass in this State the people were told by the Silver party speakers that the silver planks in the platforms of both of the old political parties were meaningless; artfully framed, so as to admit of the construction against silver in the goldbug East and in favor of silver in the South and West; simply "made to catch votes;" that both of the old parties were controlled on the silver question by the money powers of the United States and Europe in the interest of the holders of Government, railroad and other bonds and the national banks of the East; that there was great danger that the purchasing clause of the Sherman law would be repealed by the next ensuing session of Congress, etc., etc. Have not all of these statements been verified to the letter? The present occupant of the White House was scarcely warm in his seat when under the false pretense that the purchasing clause of the Sherman act had caused the then existing hard times and that its repeal would immediately restore confidence and prosperity to the country, he called Congress together in the dog days to repeal it.

From whom did the President receive his chief support in securing its repeal? The Republican party. Who were the ablest advocates of repeal? The leaders of the Republican party. What party denounces the silver dollar as a dishonest dollar, a sixty-two cent dollar? The Republican party. What party is committed unequivocally, unreservedly and irrevocably against silver? The Republican party.

In ninety-nine cases out of one hundred, outside of the silver States and Territories, "scratch a Republican and you will find a goldbug."

At the last election there were 2,822 votes cast in this State for the Republican Presidential electors out of a total vote of 10,885. The Republican vote may be fairly divided as follows: five hundred office holders and office seekers, the majority of them honest and intelligent men and good citizens, but owing to their official position and desire for official position, looking at political questions "through a smoked glass donkey." I have no hesitation in saying that the loss of the services of some of these gentlemen to the State through their political action at the last election and their probable political action at the next election will be unfortunate. At least fifteen hundred were good, honest, square men who are anxious to secure the remonetization of silver by the United States, independent of every other nation, at the ratio of 16 to 1, and restore the country to its old time prosperity prior to the demonetization of silver in 1873, and to reopen our mines, set the stamps in motion, relight our furnace fires and give to our farmers the valuable home market they formerly had. To this class more especially is this letter addressed.

Eighteen hundred years ago St. Paul said, "let us reason together." It was a wise saying and it is wisdom to follow it. The writer was a Republican of the "strictest sect" for a great many years. From 1873 until 1892, he viewed the growing opposition in the Republican party to the remonetization of silver with deep regret, but party pride and pride of opinion not unmixed with sentiment and a vague hope of reform within the party, held him fast to his party allegiance until in his judgment there was no hope of any relief from the party and then, and not till then, he resolved to dissolve his connection with the party and never again to cast his vote or use his influence for a candidate for office who is not in favor of the remonetization of silver by the United States independent of all other nations at the ratio of 16 to 1. Now my Republican friend will you vote for a candidate for President of the United States who is opposed to the remonetization of silver at a ratio of 16 to 1? McKinley denounces the silver dollar as a dishonest dollar, will you vote for McKinley for president if nominated by the Republican party?

Tom Reed, Sherman, Burroughs, Grosvenor and all the other leaders of the Republican party denounced the silver dollar as a dishonest dollar; will you vote for any of these if nominated by the Republican party? Do you believe the Republican party will nominate a candidate for President who will be in favor of free coinage? Do you believe that there is even a remote possibility of the Republican party changing its attitude on the silver question? If you do, upon what do you base your belief? If the Republican party is almost unanimously opposed to silver, and is certain to nominate a President at its next national convention, as it unquestionably will who is opposed to the free coinage of silver, by what occult process do you expect to advance the silver cause by using your influence in favor of the Republican party and voting for its nominee for president? If you are really a friend of silver and wish to see it remonetized, which do you deem the wisest course, to vote for a candidate who is opposed to remonetization and denounces a silver dollar as a dishonest dollar, or to vote for a candidate who is in favor of its remonetization, and who calls the silver dollar an honest dollar?

My Republican friend, this is no ordinary political contest. Most of our people have a common interest in the welfare of our State. We are all agreed that the present business depression amongst us is the result of the demonetization of silver and that prosperity

would be restored by its remonetization and in no other way. It is true that here and there a "rainbow chaser" amongst us recommends such nostrums as the "water cure" and we are advised to "turn our attention to agriculture." Why, our people now raise more than they can sell and therefore the "water cure" won't restore prosperity. It is a market our farmers want, not "water;" give them a market first and then water will be useful.

Now, my Republican friend, ponder these suggestions, answer the questions to yourself and if, upon reflection, you believe you can better some of the cause of silver in the State by abandoning the Republican party, do not permit sentiment, party pride or the fear of being called inconsistent or a changing influence, you for a moment, but follow your honest convictions and cast your fortunes with the party that holds the interests of the State above party and do not remain with the party that holds the interest of party above the interests of the State.

When last in Reno I was reliably informed that many Republicans who voted the Republican ticket in 1892, intended to vote the Silver ticket next fall. This is a hopeful sign, and we may reasonably expect that the Republican vote in this State will fall off at the next election not less than a thousand. The remaining, 822, who voted the Republican ticket in 1892, was made up of the "rag tag and bob tail" of the Republican party, "goldbugs," the "Lord's unaccountables," who are Republicans beyond the possibility of change, no one knows why and they don't know themselves, and the noble array of unreliable who belong to all parties by turn and to no party long. It would be worse than useless to address the latter class.

RUNAWAY ACCIDENT.

Henry Dixon Seriously Injured Yesterday Afternoon.

Yesterday afternoon as Henry Dixon, a brother of John R. Dixon, who resides in Reno, was returning to his home in Spanish Spring Valley, and near Clark's ranch on Truckee Meadows, one of the neck-yoke straps broke letting the wagon tongue fall to the ground. There being nothing to hold the wagon back it ran against the horses, which, being skittish, became frightened and started to run. Mr. Dixon held the lines for some time, but at each effort to stop the horses the wagon would run onto them causing them to become more unmanageable. Finally Mr. Dixon lost complete control of them and they started to run, throwing him from the wagon with serious results. He received a serious cut on the back of the head which it was found necessary to take several stitches in, his neck was badly hurt and he was also injured in the back. As Mr. Dixon is well along in years his injuries may result seriously. As soon as news of the accident reached town William Dixon went to the scene and took his uncle to the home of his brother, where he is receiving the best of medical assistance.

Card of Thanks.

Reno Lodge, No. 19, I. O. O. F., takes this public manner of extending its heartfelt thanks to all those noble men of Reno, Verdi, State Line Mills and Truckee, who without thought of personal gain or comfort, and who in their efforts in the cause of humanity waived all fear of personal danger and braved the rigors of Winter and danger of being overwhelmed by the avalanche, assisted in the rescue of the bodies of the four unfortunate men swept into eternity by the snow slide at State Line Mills on Monday, February 19, A. D. 1894; and it also extends thanks to all those who, being unable to reach the scene of the disaster, lent their aid in other ways in the recovery and interment of the deceased, two of them—M. S. Wheeler and T. C. Thrasher—being members of the above-named Lodge.

Special mention must be made of the efforts and unceasing labors of the officers and members of Co. O. N. N. G. and Mr. Frank Pixley.

The mention of the above-named does in no wise detract from the glory of the achievements of the rest of the army of workers.

We would gladly mention them all by name did space allow or was it necessary. Each and all are worthy of great praise.

The Elko Independent says that at the conclusion of the drill Graff bought some meat and both men went to their cabin. They found the door locked and effected an entrance by breaking the door. Way and McMahon, who were in the cabin, commenced to shoot. Five shots were fired, one taking effect in Graff's right shoulder and another in his left arm. There are rival claimants to the Piedmont mine and it appears that Way and McMahon were acting under instructions of the attorney for one of the claimants.

Genius and Education.

The world is not going to suffer through the decline of man's ability among the upper classes. Out from the ranks of the poor and unlettered will spring statesmen or actors, scientists, poets, scholars and reformers, who shall keep the great machinery of the world in motion and who shall in their turn, according to a natural law, die without noteworthy offspring and give place to others to rise from unlooked for sources. Did great brain produce greater brain, did genius produce greater genius, from one generation to another, the earth would soon groan under the oppression of tyrant of colossal intellectual power, and now generations under the tyranny of inferior talents and fortunes. It is well for humanity at large that genius cannot be inherited. Time is going away with theses, and may God speed the day when a great wealth, too, shall perish in it with each generation, and a nobility of human rights become an impossibility.—Ella Wheeler Wilcox.

Catarrh

In Its Worst Form

Life Almost a Burden

A Glorious Change Due Solely to Hood's Sarsaparilla.

Mrs. C. King
Geneva, Ohio.

Catarrh is a constitutional disease, and therefore it can only be cured by a constitutional remedy like Hood's Sarsaparilla. Read what it did for Mrs. King, concisely expressed in her own voluntary words:

"C. I. Hood & Co., Lowell, Mass.: 'Gentlemen:—From a grateful heart I write what your grand medicine, Hood's Sarsaparilla, has done for me. Five bottles cured me of catarrh in its worst form. I think it was only a matter of time, when it would have ended in Bronchial Consumption.'

I can scarcely realize wherein a few months ago life was almost a burden, sick and discouraged, now I am well and happy, gaining flesh and a new being. And all owing to Hood's Sarsaparilla.

Hood's Sarsaparilla Cures
sarsaparilla. I will never be without it. Yours gratefully. MRS. CLARK KING, Geneva, Ohio.
